Eric Squitieri

Ericsquitieri1@gmail.com   (813)-294-4193   Orlando, FL   [Personal Website]

Loyal and dedicated professional committed to contributing to organizational success. As a Computer Science student at UCF, I possess foundational skills in C, React, Java, and Web Design. I am eager to leverage my diverse experience in retail and technology to excel in a dynamic and growth-oriented software development role.

EDUCATION

University of Central Florida -B.S., Computer Science

GPA: 3.0   2021-Current

· Actively contributed **to UCF's Robotics Club** and **KnightHacks**, playing a pivotal role in organizing and facilitating coding workshops that enhanced the technical skills of over 50 peers.

· Successfully completed rigorous coursework in **Data Structures, Algorithms, Web Development, Discrete Structures,** and **AI Programming**, acquiring a strong foundation in both theoretical and practical aspects of computer science.

· Demonstrated technical proficiency by passing the UCF Foundation Exam with a score of **85%**, showcasing a solid grasp of core computer science principles.

PROJECTS

Onion - Creator   **Onion Link**

· A MERN stack website that turns your ingredients into culinary masterpieces. Build using **React**, **MongoDB**, **Node.js**, **Express**, and implementing multiple API's such as Brevo and Spoonacular.

· Developed an intuitive user interface with React to display personalized recipe suggestions, utilizing API integrations for real-time ingredient-based recommendations.

Full Stack Contact Manager - Creator

· Developed the full-stack architecture on Digital Ocean using the LAMP stack, ensuring smooth integration between front-end design and back-end functionality.

· Implemented dynamic content and smooth animations to enhance user engagement and interactivity.

· Engineered a fully responsive website with a 100% accessibility score, optimized for seamless performance across devices using **HTML, CSS,** and **JavaScript**

WORK EXPERIENCE
